

Supply Chain Solutions = Customer Satisfaction

Supply Chain Management (SCM) plays a crucial role for all businesses. We understand **how valuable your time and resources are**, which is why we prioritized the development of a successful SCM system.

A successful SCM system streamlines everyone from producers to end consumers. The journey from concept to creation can be a complicated process with many moving parts, but at IFS we're equipped to handle all your supply chain needs from **start to finish**.

How? We've been in this business for 25 years and are partnered with leading fabricators and manufacturers who deliver on time, every time. Our success is your success, and in order to ensure it we only work with reliable suppliers who offer competitive pricing and quality products.

- Multi-Metal Fabricators
 - Steel

- Vapor Degreasing
- Anodizing
- Ecoat
- Liquid Top Coat
- Powder Coat
- Custom Masking
- Laser Etching
- Assembly/Kiting
- Custom Packaging
- Dealer Direct Shipping

SHOWING UP FOR OUR CUSTOMERS: Supply chains around the world were stretched thin in the wake of the Covid-19 pandemic. Our customers faced unlikely challenges, but **that didn't discourage us**. Some had low packaging availability and lead time constraints, so we implemented an on-demand packaging machine to manufacture all packaging in-house. Others were unable to adequately staff their assembly stations, so we immediately added to our assembly and kitting department to handle their production needs.

These are just a few of the ways we were able to support our customers. We **value** the partnerships we've made and are fortunate to have grown and diversified amid such trying times. **Give us a call today to learn more about how we can service your coating needs!**
